ASIA CONTROL

PRESENTATION

Rev. 03

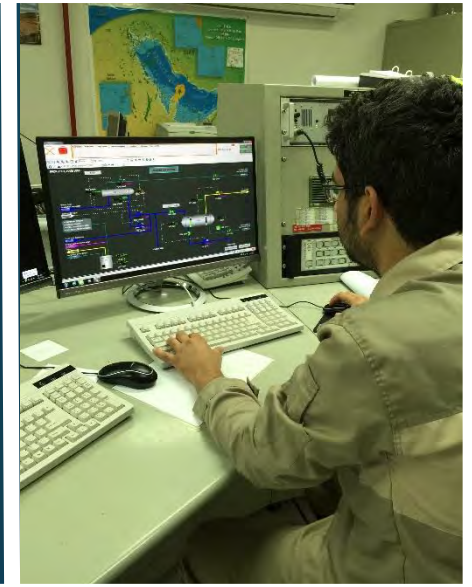

WHO WE ARE

Asia Control is an independent system integrator, providing complete industrial automation and safety solution to process environment, industrial machinery, manufacturing line and other automated facilities with professional team surprised and guided by senior experts with experiences of almost all industries.

WHAT WE DO

We are leader in integrating both the hardware and the software. We will provide the services required for a complete turnkey project but also offer all of the individual elements of an automation project such as consulting, programming, electrical contracting, instrumentation, industrial Telecommunication and panel construction.

Industrial Automation

Industrial Automation

Asia Control can offer its clients a wealth of knowledge and experience within the following areas:

- **System Development - SCADA, DCS, PLC, PIMS, ESD, MES.**
- **Turnkey Solutions complete with panel design & build, installation and commissioning.**
- **Maintenance - engineer call-out, support agreements and spares management.**
- **Consultancy - feasibility studies, system evaluations etc.**
- **Training Services - these can be tailored to your specific needs.**

Industrial Automation

- Knowledge of all leading PLC/DCS systems – Honeywell, Siemens, Yokogawa, Emerson, Schneider Electric, etc.
- Safety Critical Systems – SIL 1/2/3 applicable safety systems used for Emergency Shutdown and SIL4 for ATC
- Systems (ESD), Fire & Gas Systems, Platform Management Systems etc.
- Hazardous Area Applications.
- Asia Control has extensive and varied experience in the following industries:
- Oil and Gas (SIL Safety Systems), Chemical, Petro-Chemical, Boiler/Building Management Systems, Steel, Utilities.

Process Instrumentation

Process Instrumentation

On client demand, we are supplying from single field transmitter to complete instrumentation systems as like HIPSS, Metering System.

- Metering Skid
- Process Gas Sampling & Analyzer
- HIPPS
- Wellhead Control Panel
- Measuring Instrument
- Control Valve

Industrial Safety

Industrial Safety

Our Industrial safety business unit is mainly involved on turnkey projects involving fire detection and suppression systems for the oil & gas, petrochemical and power generation sectors. The systems delivered

include:

- F&G
- FOAM
- DRY CHEMICAL
- WATER SPRAY
- AUTOMATIC MONITORS
- INERT GASES
- WATER MIST
- Personal Protective Equipment
- Hydrant

Turbine

Turbine

We provide the following equipment and services:

- Overhaul & Repair
- Engineering Consultancy
- Site Services
- Governor & Fuel System Control
- Fuel Modulation
- Protection System
- Monitoring And Control System

Our Services

Always provide best service

1. Consultancy
2. Solution
3. Maintenance

Our Services

Always provide best service

4. Training

5. Supply

6. System

INDUSTRIES

ALWAYS DO BUSINESS WITH US

Oil & Gas

Petrochemical

Power Plant

Railway

Steel

**Water
Treatment**

Automotive

**Food &
Beverage**

Quality & HSE

Asia Control prides itself on its quality of support, with knowledgeable staff able to offer assistance at all project implementations.
